

1. Title

- 1.1. Northern Territory Remote Aboriginal Investment: Investing in Aboriginal Self-determination to Close the Gap in the Northern Territory.

2. Parties

- 2.1. This Partnership Agreement is between Aboriginal Peak Organisations Northern Territory (APO NT), the Australian Government and Northern Territory Government (NT Government) (referred to collectively as 'the Partners').
- 2.2. APO NT is represented by members selected through its own governance arrangements. These members are authorised to make decisions on behalf of APO NT.
- 2.3. The NT Government is represented by the Department of the Chief Minister and Cabinet. The decision maker will be the Minister for Aboriginal Affairs.
- 2.4. The Australian Government is represented by the National Indigenous Australians Agency and the Department of Health and Aged Care. The Minister for Indigenous Australians will be the decision maker for the Australian Government.

3. Preamble

- 3.1. The Partners acknowledge and respect the inherent rights, strength, knowledge, expertise and achievements of Aboriginal people of the Northern Territory (NT), particularly in maintaining their distinctive cultural, spiritual, physical and economic relationship with their land and waters.
- 3.2. Despite efforts by governments and Aboriginal people over decades, the gap in life outcomes between Aboriginal people and other Australians continues to be the widest in the NT. Over three quarters of the NT's Aboriginal population live in either remote or very remote areas. Their ability to access services which meet their diverse needs, and are culturally responsive, requires significant additional investment across regional and remote NT.
- 3.3. The National Agreement on Closing the Gap (the National Agreement) provides the overarching framework for addressing these challenges. With its principal objective to overcome the inequality experienced by Aboriginal and Torres Strait Islander people, the National Agreement was signed in 2020 by all Australian Governments, the Australian Local Government Association and the Coalition of Aboriginal and Torres Strait Islander Community-Controlled Peak Organisations (Coalition of Peaks). It commits to a fundamentally new way of developing and implementing policies and programs that positively impact on the lives of Aboriginal and Torres Strait Islander people.

- 3.4. All Partners are committed to this better way of working which is premised on the four Priority Reforms: Formal Partnerships and Shared Decision Making; Building the Aboriginal Community Controlled Sector; Transforming Government Organisations and Shared Access to Data and Information at a Regional Level.
- 3.5. Commencing prior to the National Agreement, the Australian Government has, through a series of agreements with the NT Government, provided supplementary financial support to deliver critical services to Aboriginal people living in remote communities across the NT. The most recent iterations of this support are a series of Federation Funding Agreement Schedules, collectively referred to as the Northern Territory Remote Aboriginal Investment (NTRAI).
- 3.6. In 2022, the Australian Government also committed to working in partnership with APO NT and the NT Government on longer-term options for future investment for Aboriginal people living in remote communities in the NT (including homelands and outstations), that give effect to the Closing the Gap Priority Reforms.
- 3.7. Subsequently, the Partners have agreed to this Partnership Agreement as per the term set out at clause 7.1, to set out the enduring shared decision-making arrangements to guide future NTRAI investment and ensure alignment to Closing the Gap Priority Reforms is maximised in the implementation, monitoring and evaluation of NTRAI funded services.

4. Commitment to investment

- 4.1. The Australian Government has committed \$842.6 million over six years to strengthen the delivery of critical services for Aboriginal people in remote NT communities under NTRAI investment. The Australian Government is committed to delivering this investment in alignment with this agreement and the National Agreement.

5. Objectives of the agreement

- 5.1. The overarching objective of this agreement is to enable substantive and enduring opportunities for self-determination for remote Aboriginal communities to close the gap in life outcomes between those communities and other Australians.
