Deputy Chair  
Senate Finance and Administration Legislation Committee

Dear Senator Paterson

*Senator,*

Since my correspondence of 12 March 2020, regarding the evidence provided by the National Indigenous Australians Agency (the Agency) to the Senate Finance and Public Administration Legislation Committee on 6 March 2020, I would like to provide you with an update on progress of the Indigenous Advancement Strategy (IAS) data assurance activity that I initiated.

As you know, prior to last Estimates, a large amount of information was requested by Senator Ayres in a relatively short time-frame and was provided to the Senator and the Committee on 6 March 2020. As previously advised this task involved significant staff effort, manual extraction of data and consideration of some 13000 documents. Given the compressed timeframe, the scale of the work and the same personnel being responsible for the preparation of key Senate Estimates briefs, errors in data compilation were made with consequent impacts which I will set out below.

The responses to Questions on Notice 0120, 0128 and 0247 reflect updated data in them following the data assurance activity.

In the March hearing, Ms Hope advised that the then Minister for Indigenous Affairs made 641 funding decisions during the period 1 January to 10 April 2019. This number did not include the 103 NAIDOC week decisions which were discussed separately in other evidence that day. As a result of the data assurance activity I can advise that there were 878 funding decisions (made up of new funding decisions, NAIDOC week funding decisions and the extension of recurring grants under the ceasing grants process).

OFFICIAL

Released under the FOI Act by the  
National Indigenous Australians Agency

Of these 878 decisions the then Minister:

- agreed with the then Department's recommendation on 797 occasions,
- on 39 occasions the then Minister did not agree to fund an activity recommended by the Department (see Attachment A);
- on 32 occasions the then Minister's decision was to fund an activity that the Department did not recommend (see Attachment B); and
- on 10 occasions the Minister made a decision without a recommendation from the then Department, of which only one progressed to a grant.

All IAS grants executed by the then Department during that period, were assessed for eligibility and against the selection criteria outlined in the IAS grant guidelines.

As part of the data assurance activity I also directed a review of the data underpinning the evidence given by Agency officials on related questions to ensure answers remained accurate. I can advise you that Ms Collard's statement in October 2019 was not correct when she advised that the then Minister had made 240 new funding decisions between 1 March and 10 April 2019. Following the analysis I can confirm this number was in fact 278 new funding decisions.

As I have advised in successive opening statements to the Committee, the Agency has embarked on a significant and wide ranging reform program over the last 12 months. In relation to these matters the reform program has been focused on remediating the grants and data management systems and practices which historically have not been well integrated. As we discussed in the March 2020 hearing, the changes to the delegation decision making introduced by Minister Wyatt that came into effect on 1 July 2019, have I believe also led to improvements. I am determined to continue to better position the Agency in this area and very happy to discuss the ongoing reform program in more detail with the Committee.

The data assurance activity has been a significant piece of work alongside the significant cultural and organisational change that has been implemented. Providing accurate data to the Committee remains a key focus of mine going forward.

Yours sincerely

**RAY GRIGGS**

**Senator Malarndirri McCarthy:** asked the National Indigenous Australians Agency on 6 March 2020—

Senator McCARTHY: That's helpful. Thank you, Mr Griggs. We might walk through this. Were all of these successful grants initiated by the applicant? I'm talking about the period March to caretaker on 11 April.

Mr Griggs: I would have to check that in detail, but my instinct is that there was a range of mechanisms used.

Senator McCARTHY: Can you take that question on notice? Also, Mr Griggs, was this before the caretaker period, during those six weeks from March?

**Answer —**

Refer to response Question on Notice 123 from Additional Budget Estimates 2019-20.

**Senator Timothy Ayres:** asked the National Indigenous Australians Agency on 6 March 2020—

Senator AYRES: Well, I'm right on it, then. So you didn't have then, and you don't have now, any visibility about whether or not, for instance, the minister engaged with the Prime Minister's office prior to making decisions?

Mr Griggs: No.

Senator AYRES: I'm flicking through it and looking at areas of New South Wales that I know a bit about. Who proposed applications G211 and G219 to G222? They were on the south coast of New South Wales. Were they ones that the minister identified to the department-

Mr Griggs: I couldn't tell you that now.

Senator AYRES: I would like you to provide on notice more information than you've provided in this. The information you've provided is what we asked for and it's comprehensive in those terms. But I would like to know for each of those applications what electorate they were in, whether or not they were applications made by organisations who are the beneficiaries of the applications or whether they were applications that the minister's office asked the then department to work up with the organisation. There may be some other categories where you've actually seen a need in a community and the department then just did it. I appreciate that might be the case. I also want to know, in regard to those applications that were approved-so we're talking about 1 January to caretaker-how many of those applications were the subject of announcements by members of parliament or candidates in the election during the campaign. Could you provide that on notice for us?

Mr Griggs: I can attempt to do that.

**Question on notice no. 247**

**Portfolio question number: 247**

**2019-20 Additional estimates**

**Finance and Public Administration Committee, Prime Minister and Cabinet Portfolio**

**Senator Malarndirri McCarthy:** asked the National Indigenous Australians Agency on 6 March 2020—

Senator McCARTHY: While we're waiting for that, Mr Griggs, any applications decided by the agency after 8.30 am on 11 April were the two that you did?

Mr Griggs: They were two new decisions.

Senator McCARTHY: Two new decisions.

Mr Griggs: I did execute 36 or 32 pre-existing decisions through the caretaker period because of the nature of those particular grants.

Senator McCARTHY: They'd already been agreed to?

Mr Griggs: They'd been approved prior to caretaker.

Senator McCARTHY: And you just finalised it?

Mr Griggs: We finalised them because of the nature of those, to ensure continuity of service in community safety or whatever. I went through every one of those decisions that you talked about earlier and assessed, over the course of several weeks during caretaker, what should be executed under the caretaker convention and what should wait until after the election.

Senator McCARTHY: Are these documents that I have here part of those 32 grants executed? These are the ones with the questions on notice. These are the ones where we've got the organisation, activity, title, approved amount-or are they separate?

Mr Griggs: No, I think they'll be separate. I will get you a list of those.

Senator McCARTHY: Okay.

Mr Griggs: I think it was 32 or 36. I'll get you a list of those.

**Mr Griggs:** They'd been approved prior to caretaker.

**Senator McCARTHY:** And you just finalised it?

**Mr Griggs:** We finalised them because of the nature of those, to ensure continuity of service in community safety or whatever. I went through every one of those decisions that you talked about earlier and assessed, over the course of several weeks during caretaker, what should be executed under the caretaker convention and what should wait until after the election.

**Senator McCARTHY:** Are these documents that I have here part of those 32 grants executed? These are the ones with the questions on notice. These are the ones where we've got the organisation, activity, title, approved amount—or are they separate?

**Mr Griggs:** No, I think they'll be separate. I will get you a list of those.

**Senator McCARTHY:** Okay.

**Mr Griggs:** I think it was 32 or 36. I'll get you a list of those.

**Answer:**

During the Caretaker period, the Department of the Prime Minister and Cabinet progressed to executed funding agreement, 32 new funding decisions made by Minister Scullion in the six weeks prior to the commencement of the Caretaker period (Table A).

In addition, the then Department executed a further 53 agreements for decisions made prior to 1 March 2019 or for ongoing services due to cease by 30 June 2019.

**Table A: New funding decisions between 1 March and 10 April 2019 executed during the Caretaker period**
